

There are several reasons why I would be excited to learn Portuguese at Mar e Floresta. I became interested in learning Portuguese last year when I went to Portugal for a month with my family and had the opportunity to learn about the Portuguese people, culture and language. My family traveled in many parts of the country, and met people from several different countries where Portuguese is spoken. Now, I would like to learn even more about the language, and the different countries where Portuguese is spoken, and their cultures. One of the parts of our trip that I most enjoyed was going to Coimbra and seeing the University. I would like to study there someday. It was an amazing place, and it helped me become interested in learning Portuguese.

I am also interested in learning Portuguese because I am of Portuguese descent and some of my relatives are from the Azores. These relatives include my great-grandma, who I am named after.
