Concordia Language Villages has been arranging transportation for youth and family participants for more than 30 years. We work closely with airlines and bus companies to provide the safest, most cost-effective service available.

Our highly trained staff members meet participants at regional airports and transportation hubs, and then arrange for supervised charter bus service or Village vehicle transport to our camps across Minnesota. Each summer, more than 1,000 villagers ages 7-18 use our transportation services. Parents and villagers routinely report that they are very pleased with the level of supervision and safety provided.

Our staff, dressed in bright yellow polos, will greet your child at his or her gate!

I think the transportation is excellent. We send both of our children, Micki and her brother Jeremy, from California. I am very comfortable with how the staff escorts them and looks after them. Transportation is great.

Mother of two villagers
Irvine, CA

Bernham’s flight was delayed from St. Paul to Bemidji. I was reassured by staff that he would be taken care of, and a staff member would be available regardless of his arrival time. I was kept informed throughout the delay, and staff, called just prior to midnight to confirm Bernham’s arrival at Concordia Language Villages. We were very grateful for the staff’s proficiency in communication.

Mother of a credit villager
Granbury, TX

We loved that the girls were able to fly home as unaccompanied minors. It was reassuring to know that they are well cared for by Concordia Language Villages staff until they are on the plane.
