### Flight Information

Your Credit Abroad Facilitator will have your electronic ticket (e-ticket) prior to departure. Your important travel documents; your passport, your docs for travel upon return to the states, your money, will have been stored at the village in our office safe and returned to you during the interim weekend, as you leave the Village and head to the MSP airport together.

### Electronic Airline Tickets (E-Tickets)

Most airlines use e-tickets. In this case, all you need to check in is your passport (and any required travel documentation for non-U.S. citizens).

### Travel Documents

You must show your valid boarding pass and your passport at multiple airport security checkpoints throughout the day. Keep these items on your person at all times.

### Airport Security

All passengers pass through a security checkpoint in order to gain access to the gate area. Follow the instructions given by your Credit Facilitator.

Before you pass through the metal detector, remove your jacket and all metal objects (jewelry, coins, heavy belt buckles); keep these items in your carry-on until you have cleared security. Remove your quart-sized bag of liquids from your carry-on and plan on removing your shoes and sending them through the metal detector.
| Airport Security (continued) | Anyone who trips the alarm will be screened individually with a handheld, metal-detection wand. This person may also be patted down and the contents of his/her wallet or purse and carry-on bag may also be searched. Keep an eye on your items that remain on the conveyer belt until you are cleared.

Once you clear security, make sure you have gathered all your belongings and put your travel documents in a secure place on your person. |

| Air Travel Tips | Never separate from your group (i.e., go to the restroom) without telling your leader where you are going.

Check airport monitors for current gate information! Sometimes gate assignments change from the time you check in until the time your flight leaves.

It is YOUR responsibility to be at the assigned gate with your group at least 60 minutes prior to scheduled departure and to make sure that your tickets and other travel documents are with you.

Always keep your carry-on with you; never leave it or your travel documents unattended. |
