## Welcome to Concordia Language Villages,

Thank you for taking the time to review our COVID-related protocols, designed to ensure the safety of all our valued guests and staff.

Our first goal is to ensure COVID-19 does not enter the Villages; therefore, if you have had the below symptoms (without another diagnosis by a physician) or a known exposure to COVID-19 within the two weeks preceding your arrival, please do not visit without first speaking directly with Health Services.

### Symptoms (COVID-19):

- fever
- cough, any new shortness of breath or difficulty breathing
- chills, shaking with chills
- headache, muscle pain or body aches, fatigue
- new loss of taste or smell
- sore throat, congestion or runny nose
- diarrhea, nausea or vomiting

### While in the villages these risk mitigation strategies are required:

- Maintain a distance of six feet between yourself and others.
- Wear a mask anytime you are indoors
- Wash hands thoroughly and frequently; catch coughs and sneezes with your elbow
- Be mindful of the surfaces you touch. In general, if you used it, leave it disinfected for the next person.

Keep in mind that COVID-19 is a respiratory disease — protect your air space. Meet outdoors whenever possible. If you must meet indoors, open windows when possible to increase air flow. Keep in mind the threshold of significant exposure is being within six feet of someone not wearing a mask for more than 15 minutes.

Regards,

**Mollie Nelson & Candace Kretchmar**
