Chamber of Commerce News

By Champ and Bart

People want do to this job because it is very simple. The people who have chosen to be part of the chamber think they will get a lot of money. Here you can work many different jobs like post officer, fruit seller, banker and lottery manager. The people here make money and control it. They decide which jobs you can do and can change it for you, too. The Chamber of Commerce also has organised a lottery that probably will probably be during the weekend. Now we know the price, it will be between 5 and 10 Homeys for one ticket.
