

The Sandwich Man Can

By Percy and Jonny

Calvin is a rich sandwich man who works on the first floor. His partner is Alvin. Calvin buys his food from the kitchen where we eat lunch. He makes a lot of money because his sandwiches are very good. On an average day in Hometown, Calvin makes 160 Homey profits. The prices are:

- 2 homies for a fruit;
- 5 homies for a rise cake;
- 10 homies for a sandwich.

He puts his food in the Chuck's fridge. He pays Chuck 10 homies everyday for rent.

Calvin is a Hometown success story. Not quite as greedy as the land lords, Calvin has managed to make a huge profit without disrupting Hometown!

The Film Critic

By Michael

On Sunday we were making movies in Hometown. I think that they weren't so good. The science fiction directed by Billy was very boring. All the time robots were talking about killing. It was the worst movie. The Western movie directed by Vern also wasn't so funny, but I think that it was better than science fiction. The best movie was horror directed by Marv. It was quite funny and I enjoyed it.
