

Continued from page 1 ...

We all had great time dancing, gambling and face painting. Various activities brought us joy and happiness. We were also had a delightful time signing at Rock-n-roll. Billy taught us songs with enthusiasm and patience. He even sponsored a nice concert in the evening for Rodeo Drive. The counselors showed us the beauty of Swiss Alps and the flora growing all over this lovely mountain region. The big fantasy adventure Lord of the Things featured a great hiking experience, funny stories and a colorful evening campfire. Every afternoon the villagers took part in different activities and our tight schedule even left some girls time for sun bathing. Then during the Hometown simulation we created a city within our camp community. The media reported, the City Council taxed, the Chamber of Commerce did business as usual, Parks and Recs created a garden, and the Fine Arts Council painted posters and danced. So all in all we enjoyed an exciting time at Hometown Europe! Every villager made new friends from many countries and hopefully we will return next year with smiles ready to have fun again. See you next year! (That is if the robots don't get you first! Ho, ho, ho ...)
