

## **Waldsee: Worth the Investment**

These days, we are all taking another look at how we spend our money. We want the investments we make to make a difference.

At Waldsee, we've been busy making some investments of our own. We've been investing...

...in our people, who are eager to bring back to Waldsee kids this summer the world of experience they have all gained this year.

...in our villagers, by offering new scholarships, new contests like the *Internet Schnitzeljagd* (check out our website!) and a great deal of planning and energy as we count down to summer.

...in our village. We have been sprucing, cleaning, and adding new cafe areas near our outdoor *Backofen* and our *Grillplatz*.

...in our curriculum. We've been writing new materials and charting new directions. Our new book, *Gute Idee! Best Practices from Waldsee for Teachers of German*, is soon to be distributed nationwide.

...in our partnerships. We are joining with other organizations to promote German, offer Teacher Empowerment Scholarships and launch a national contest called "Why Learn German?" It's a good question! Find some answers here.

Waldsee is an investment that makes a difference. In fact, we've been making a difference for almost 50 years. You invest in us, and we invest in you.

**In these times, Waldsee is worth the investment.**

We lift language, but we are more than verbs and nouns.

We nurture community, but we are more than a lakeside village in the woods.

We build self-confidence, but we are more than supportive educators and counselors.

At Waldsee, we offer perspective. On the world. On life. On yourself.

Language is the key we turn, and culture is the door we open.

Step into German and step into a wider world of experience and understanding.

At Waldsee. It's worth the investment.

**Waldsee. Investing in young people since 1961.**
